# Maturity Variations along the Western Margin of the Barents Sea

new for  
Q4 2016

- Comprehensive study of maturity data along the western edge of the Barents Sea
- New APT vitrinite reflectance and Rock-Eval analyses for wells 7016/2-1 & 7218/8-1
- Integration of published TOC, Rock-Eval, vitrinite reflectance and headspace/occluded gas data available via NPD website for released wells 7117/9-1, 7117/9-2, 7216/11-1 S & 7218/11-1
- 1D modelling of all 6 wells to validate maturity implications and test heat-flow trends

APT is a commercial company offering high quality analyses and consultancy services to the oil industry within the fields of petroleum geochemistry, biostratigraphy and production monitoring
